

Thank you, Mr. Pat, Jewll Industries

Jewll Industries

A farewell fit for a Jewll legend

Pat Stone

Manager of Costings and SHERQ.

On the 11th of January 2006 Pat began working at Jewll Industries when the company was still located in the industrial area of Meadowdale, just East of Johannesburg. Due to expansion, Jewll Industries (Pty) Ltd relocated to larger premises in Hughes, a suburb of Jet Park, during November 2006. Pat experienced Jewll Industries operational capacity in our two different locations over the 27-year existence of the company, allowing Pat to grow himself simultaneously with the company's growth. Pat throughout these 17 years you have been instrumental towards Jewll Industries growth, your unwavering support, advice, guidance, and belief in Jewll Industries workforce has allowed our employees to reach heights they didn't believe were possible. Thank you for always being meticulous in your work and always being the first person to step-up in troubled times to offer a helping hand or words of encouragement.

Jewll Industries

From us to you

A trip down memory lane and a spotlight on Pat's impact on personal and professional life.

PAT SE SÊGOED

'n Kondensmelkkoffietjie sal lekker wees
Dis nie te gaaf nie
Dis bietjie stowwerig
Kom ons kry die troepe bymekaar
Ek het net bietjie om die dam gaan loop ...
(as dinge bietjie frustrerend raak)
Maandag veg ons weer voort ...
Terwyl ek nog hier is ...

Pat se spesiale e-posstyl:

Morné,
Approved..... also Driver.... Pls clear with Cindy....
Thx Pat.

"Pat's favourite sayings and our favourite ways to remember him"

Mohapi:

Pat has been a treasure-trove from which I have gained so much knowledge over the years ...I wasn't always able to handle pressure the way that I am now and I owe it all to Pat ...He's like that grandpa who just know everything, whether it be academic or something that needs to be fixed you can bet your last buck that he'll have the answer, and if he doesn't, he knows someone who does.

Paul:

For the 10 years I have known you, you proved to truly be a great leader. You have taught me so much - attention to detail, maintaining high quality work standards, neatness and how to make a challenging situation work out with the correct planning, working long hours with you in the dyno room sorting water flow and direction of water on flameproof engines.

Ntuthuko (Jan):

I have learned a lot of positivity from Mr. P Stone. Work hard, be punctual and ethical, stick to the principles not only in the workplace, but also in life generally and the way you look can determine yourself!

Gareth:

For me I tap into the professional side of you and how you have conducted yourself toward the Van der Lingen family, amazing. Pat, truly for me an honor to firstly have met you as a critical supplier to Jewll in the good old days and now to go the full circle as I embark on this Jewll journey. I sit sometimes now and think to myself ... WHAT WOULD PAT DO? "PAT must think I'm a cowboy in this modern world..." Your outlook on life be it personal or here at work.... You've always amazed me of the stats you register and monitor. Pat, you have always been a "proper" gentleman to me, and I thank you for that, may you continue with good health and blessed times with the family.
