Dazzling Triumphs: Celebrating Excellence for Jewll Industry Highlights from 2023

Issue #5

Highlights from the 2024 Awards Ceremony

Jewll Industries

Gold, gold, and more gold

Successes for 2023

As we bid farewell to 2023, the world of Jewll Industries reflects on the laughter, accomplishments, mishaps, and unforgettable memories that encompassed the year 2023. The annual awards ceremony is a celebration, weaving together the tales of memories, moments, and accomplishments for the Jewll Industries family in a personal and shared capacity. The celebration commenced at 12:00pm in the afternoon of Friday the 26th of January. The décor was set, and the vibes were flowing creating a harmonized energy for enjoyment and laughter. Jewll Industries selected “Earth” as the theme due to the nuances associated with being grounded, experienced and dependable which sums up the workforce present at the company.

Jewll Industries

An overview of Jewll Industries year end function

Highlights of the event

The reasoning behind a year-end function is to highlight the appreciation Jewll Industries has for all of our staff members, creating a joyous occasion for all of those whom dedicate their time and hard work into bettering themselves and the company, enabling Jewll Industries to continuously break barriers and enter new depths of the market...without our amazing staff members commitment and dedication to their roles Jewll Industries wouldn't be the success it is today.

Gareth Jackson along with Marlee van der Lingen and Pat Stone took control of the award ceremony and came prepared with hilarious one-liners and stories to accompany the award winner with the medal and/or trophy received. The ceremony itself was accompanied with celebrations and laughter, highlighting the Jewll spirit and upliftment of one another for a shared cause. The ceremony ended and the celebration began with the music pumping and drinks flowing created a memorable experience for all as we danced until the sunset, creating new memories and moments to be shared at the next event.

The function began with lunch which consisted of half a chicken per person, pap, sauce, chakalaka and freshly baked roles accompanied with a Wim van der Lingen punch, strawberry, pineapple or as the saying goes ‘pick your poison.’
