

HAND-PORTABLE FIRE EXTINGUISHERS

Quality is Behind the Diamond[®]

PORTABLE FIRE EXTINGUISHERS FROM AMEREX

AMEREX portable fire extinguishers have been the industry standard for more than 50 years. Since 1971, our commitment to quality, service, and innovation has been unmatched.

Quality is Behind the Diamond[®]—in every product.

 People never think twice about fire extinguishers until they need one, but when they need one the extinguisher must work. At Amerex, we all work together to make sure we're delivering the best quality products available. From our quality audits at each level of production to shipping

preparations before leaving the warehouse, you know the products you receive are what you have come to expect from Amerex. With warehouses located in Oakland, NJ; Elk Grove Village, IL; Santa Fe Springs, CA; and Trussville, AL, you are assured that product lead times are at a minimum.

For more detailed product and ordering information, visit webstore.amerex-fire.com.

Longer life, lower cost, and the best warranty in the industry—**that's quality behind the diamond.**

All Amerex Fire Extinguishers comply with the recommendations of the **National Fire Protection Association** and are tested and rated by **Underwriters Laboratories** or **FM Global** to **UL Standards**. All extinguisher nameplates contain the necessary HMIS information to comply with national and local OSHA requirements.

WHERE TO USE

AMEREX manufactures a variety of hand-portable and wheeled fire extinguishers, both “compliance” (code required) and “specialty” types.

“Compliance” extinguishers are designed to meet and exceed state or local fire protection requirements. “Specialty” extinguishers are intended for use on particular types of hazards so they should be placed in close proximity to the specific hazard they are meant to protect. It is natural for a person to use the extinguisher located nearest to a fire. The most current issue of NFPA-10 should be consulted for minimum recommended fire extinguisher types, placement, and travel distances. Your local Amerex Fire Equipment

Distributor is professionally equipped to help you evaluate and implement these recommendations. All “Pictograms” are detailed below and should be reviewed with all who might be expected to use a fire extinguisher. Everyone should be familiar with these picture symbols that identify the types of fires on which they may be used. The international sign system diagonal red slash indicates a potential danger if the extinguisher is used on that particular type of fire.

TYPES OF FIRES			
Class A	Ordinary combustibles	Wood, paper, rubber, fabrics, and many plastics	
Class B	Flammable liquids & gases	Gasoline, oils, paint, lacquer, and tar	
Class C	Live electrical equipment	Fires involving live electrical equipment	
Class D	Combustible metals or combustible metal alloys	Magnesium, titanium, potassium	
Class K	Fires in cooking appliance that involve combustible cooking media	Vegetable or animal oils, and fats	

Types of Extinguishers	
Class A	
Class A:B	
Class A:B:C	
Class A:C	
Class B:C	
Class D	
Class A:K	

HOW TO USE

All AMEREX extinguishers are furnished with a detailed “Owner’s Manual” containing valuable information on the installation, use, and maintenance of the extinguisher. The extinguisher nameplate contains specific information on “HOW TO USE” the particular extinguisher. The label instructions vary slightly according to type and size. Potential operators should be familiar with the instructions on any extinguisher they might be required to use.

APPLICATIONS

HEALTHCARE

Aluminum Valve Dry Chemical, CO₂,
Clean Agent, K Class, Water Mist, Wheeled Units

TRANSPORTATION

ABC Dry Chemical—All varieties (OEM, Up-fitters, Aftermarket)

Quality is Behind the Diamond®

WATER

RUGGED

- 5-Year manufacturer's warranty
- Stored pressure design
- Polished stainless steel cylinders
- All-metal valve construction
- Exclusive crevice-free, butt-welded cylinder
- Temperature range -40°F to 120°F

USER-FRIENDLY

- Maximum visibility during discharge
- Large loop stainless steel pull pin
- QR coded and multilingual labels

OPTION

- Model 506B anti-freeze charge

MODEL 240 utilizes the cooling, soaking, and penetrating effect of a 45-55-foot stream of WATER. The 55-second discharge time makes it very effective for inexperienced operators for use on Class A fires that include combustibles such as wood, cloth, paper, and many plastics. This section is constructed with a chrome-plated brass valve and polished stainless steel cylinder, which helps eliminate corrosion.

**EXTINGUISHER
SHIPS EMPTY**

240

THE MODEL 240 MAY BE FREEZE-PROTECTED TO -40°F BY ADDING A MODEL 506B CHARGE

 CAN/ULC-S507 - UL 626 &
 CAN/ULC-S508 - UL 711

WET CHEMICAL

WET CHEMICAL extinguishers are the best restaurant kitchen appliance hand-portable fire extinguishers you can purchase. Each model utilizes a specially blended potassium acetate base agent and has been tested and approved by UL for restaurant kitchen hazards. The recent trend to more efficient cooking appliances and use of vegetable-based cooking oils dictates the use of a hand-portable fire extinguisher with greater fire-fighting capacity and cooling effect to combat these very hot and difficult fires. The Class K is available in two sizes; 6 liter or 2½ gallon—with attractive stainless steel cylinders and easy-to-use hose-and-spray application nozzles. The superior fire-fighting capability of the Wet Chemical agent is placed exactly where you aim it with no dry chemical residue to clean up. Models C260 and C262 are the ideal “KITCHEN USE” fire extinguishers. They supplement existing cooking equipment automatic system protection for the extra margin of safety.

RUGGED

- 5-Year manufacturer’s warranty
- Stored pressure design
- Polished stainless steel cylinders—USCG models have durable high-gloss polyester powder paint coating
- All stainless steel valve construction
- Exclusive crevice-free, butt-welded cylinder
- Tested on commercial deep-fat fryers to UL711 test protocol
- Class 2A rated to meet fire code occupancy hazard requirements
- Temperature range +40°F to 120°F

USER-FRIENDLY

- Factory charged
- Large loop stainless steel pull pin
- Agent discharged as a fine mist—helps prevent grease splash and re-flash while cooling the appliance
- Precise extinguishing agent application
- QR coded and multilingual labels

EXCELLENT FOR USE ON ALL COOKING APPLIANCES INCLUDING SOLID FUEL CHARBROILERS

WATER MIST

RUGGED

- 5-Year manufacturer's warranty
- Stored pressure design
- Stainless steel cylinders
- Durable high-gloss polyester powder paint
- All-metal valve construction
- Exclusive crevice-free, butt-welded cylinder
- Temperature range +40°F to 120°F

USER-FRIENDLY

- Large loop stainless steel pull pin
- Maximum visibility during discharge
- No electrical conductivity back to the operator
- No thermal or static shock
- Minimal training—simplest to use
- Most economical agent available
- Sanitary and easy-to-clean white paint finish
- No powder residue
- QR coded and multilingual labels

WATER MIST is the ultimate extinguisher for Class A fires and for locations where potential Class C (electrical) hazards exist. The fine spray from the unique misting nozzle provides safety from electrical shock, greatly enhances the cooling and soaking characteristics of the agent, and reduces scattering of burning materials. The Amerex Water Mist extinguishers contain deionized water (sold separately) making them the best extinguishers for protection of hospital environments, telecommunication facilities, and “clean room” manufacturing facilities. The Amerex Water Mist extinguishers are easy to use, maintain, and service.

MR CONDITIONAL

- Nonmagnetic construction tested by an independent agency for use in MRI facilities to 11.7 Tesla (including wall hanger bracket)

HALOTRON® BRX (2-BTP)

HALOTRON® BRX (2-BTP) Amerex provides a unique solution for Halon 1211 replacement. These extinguishers utilize Halotron® BrX to fulfill the next generation of aviation extinguisher requirements. BrX is a low Global Warming Potential (GWP) and very low Ozone Depletion Potential (ODP) clean agent approved for use on commercial aircraft. The extinguishers are constructed of lightweight aluminum valves and cylinders (Model 351 has a steel cylinder). Models 349 and 351 include a hose that allows the operator greater flexibility for utilization in tight spaces. Amerex is the solution for the aviation portable extinguisher needs.

RUGGED

- 6-Year manufacturer's warranty
- Stored pressure design
- Aluminum cylinders (Model 351 has a steel cylinder)
- Durable high-gloss polyester powder paint
- All-metal valve construction
- Hose is unique to Amerex product (Models 349 and 351)

- Extinguishers are maintained in accordance with NFPA 10
- Hose provides greater access to tight spaces—offering greater flexibility when using the extinguisher (Models 349 and 351)
- Temperature range -40°F to 120°F

FAA APPROVED

- Models 347, 349 and 351 are FAA approved in accordance with DOT/FAA/AR-01/37

HALOTRON® BRX EXTINGUISHERS HAVE A 12-YEAR SERVICE LIFE AND ARE NON-RECHARGEABLE

USER-FRIENDLY

- Maximum visibility during discharge
- Large loop stainless steel pull pin (Model 351)
- No electrical conductivity back to the operator
- No thermal or static shock
- Leaves no residue
- QR coded and multilingual labels

ENVIRONMENT

- EPA approved “clean agent” for Class A, B and C hazards
- Low GWP – 0.26 (100 year)
- Low ODP – 0.0028
- Short atmospheric lifetime

ENVIRONMENT

- Low Global Warming Potential (GWP) 0.0098, CFC-11=1.0
- Low Ozone Depletion Potential (ODP)—77,100 yr. CO2 time horizon
- Short atmospheric lifetime

OPTION

- Extinguishers are USCG approved with bracket listed on UL label
- Chrome cylinders (see chart at right)

HALOTRON® I clean fire extinguishing agent discharges as a rapidly evaporating liquid, which is non-conductive, noncorrosive, and leaves behind no residue. Halotron® I is the clean agent market leader with a history of successful real-world protection of valuable assets. From model-scale aircraft to wide-body commercial aircraft, from data centers to pharmaceutical and other industrial plants, the Halotron® I agent has been used to extinguish the fire, limit damage, and help reduce downtime that can be caused by other agents.

Applications for these extinguishers include: data centers, laboratories, manufacturing plants, general office areas, computer rooms, telecommunication facilities, clean rooms, control rooms, warehouses, military electronics, vehicles including classic autos, boats, engine compartments, aircraft ramps, onboard aircraft, and in facilities that service aircraft and any facility where dry chemical extinguishers could cause unacceptable damage or contamination.

HALON 1211

HALON 1211 is a liquefied gas, pressurized with nitrogen, which discharges as a vapor causing no cold or static shock and no impairment of the operator's vision. This "CLEAN" agent quickly penetrates difficult-to-see and hard-to-reach areas and leaves no residue. It is recommended for protection of delicate, sensitive, and expensive computers, electrical equipment, tapes and film, automotive and aircraft engines, laboratory chemicals and equipment.

Shipping Permit DOT-SP-21460

ABC DRY CHEMICAL

ABC or MULTI-PURPOSE extinguishers utilize a specially fluidized and siliconized mono ammonium phosphate dry chemical. It chemically insulates Class A fires by melting at approximately 350°F and coats surface where it is applied. It smothers and breaks the chain reaction of Class B fires and will not conduct electricity back to the operator.

SPECIALIZED EXTINGUISHERS

Quality is Behind the Diamond[®]

CLASS D

The Amerex “soft flow” extension applicator is particularly suited for fighting **CLASS D** fires. It allows the operator to stand away from the extreme heat and toxic fumes caused by burning material. The easily controlled, even discharge provides a non-dispersing application of the agent. The extension applicator may be quickly detached to provide a straight stream of chemical where greater range is required.

RUGGED

- 6-Year manufacturer’s warranty
- Stored pressure design
- Dependable drawn-steel cylinders
- Class D color-coded paint finish
- All-metal valve construction
- Temperature range -40°F to 120°F

USER-FRIENDLY

- Unique “soft flow” extension applicator plus built-in long-range nozzle
- Large loop stainless steel pull pin
- QR coded and multilingual labels

OPTION

- Model 859 dolly cart provides for easy transport

***MODEL C571** Due to the density of copper, extra agent is added to achieve 30 lbs. of agent discharge at a 45° angle. **THE ACTUAL EXTINGUISHING RECHARGE AGENT QUANTITY IS 41½ LBS.**

MANUFACTURED AND TESTED TO UL STANDARDS
COMPLIES WITH NFPA 10 STANDARD
ISO-9001/ISO-14001 CERTIFIED FM APPROVED

CONFORMS TO TEST STANDARDS:
CAN/ULC-S504 - UL 299 &
CAN/ULC-S508 - UL 711

MODEL B570 contains a special blended sodium-chloride-based dry powder extinguishing agent. Heat from the fire causes it to cake and form a crust excluding air and dissipating heat from burning metal. Metal fires involving magnesium, sodium, potassium, and sodium-potassium alloys can be successfully extinguished with this extinguisher. There is data showing that zirconium, uranium, titanium, and powdered aluminum fires can be controlled and extinguished with this unique extinguisher.

AVAILABLE IN 150-LB. WHEELED EXTINGUISHER

HAZARD	Fire Ratings Approximate Hazard Size	
	Area FT ² (m ²)	Quantity of Metal LBS (KG)
Magnesium chips	4 (.37)	6 (2.72)
Sodium spill	5 (.46)	5 (2.26)
- Depth over ½ inch (1.3 CM)	3 (.27)	6 (2.72)
Potassium spill	5 (.46)	5 (2.26)
- Depth over ½ inch (1.3 CM)	3 (.27)	6 (2.72)
Sodium potassium alloy spill	3 (.27)	2 (.9)

MODEL C571 contains a copper extinguishing agent specially developed by the U.S. Navy for fighting lithium and lithium alloy fires. The copper compound smothers the fire and provides an excellent heat sink for dissipating heat. Copper powder has been found to be superior to all other known fire extinguishing agents for lithium metal fires. **Not recommended for lithium-ion battery fires.**

AVAILABLE IN 250-LB. WHEELED EXTINGUISHER

Extinguishing Capacity:
4 ft.² and/or approximately 5 lbs. of lithium metal

FOR COMBUSTIBLE METAL FIRES

AGENT TYPE	SODIUM CHLORIDE	COPPER

Z-SERIES HIGH PERFORMANCE

Z-Series extinguishers are the ultimate choice in fire extinguishers for high hazard, frequent use, and extreme environment applications. They are economical—less initial cost, lower maintenance costs, and greater reliability than cartridge-operated extinguishers. Amerex Z-Series extinguishers are available with a proprietary, zinc-enriched coating that resists corrosion for up to 12 years in severely salt-contaminated environments.

AVAILABLE IN 125-AND 250-LB. WHEELED EXTINGUISHERS

RUGGED

- 12-Year manufacturer's warranty
- Zinc-enriched coating
- All-metal valve construction
- Chrome-plated brass gauge guards
- Protective rubber foot rings
- Superior vertical and horizontal range
- Higher operating pressure
- Temperature range -65°F to 120°F

AGENTS

- ABC or Purple K

FAST FLOW

790, 791, 792, 793, 794, 795, 796

COMPLIANCE FLOW

713, 714, 715, 716, 717, 718

USER-FRIENDLY

- Wide grip allows clearance for gloved hand
- Large loop stainless steel pull pin
- QR coded and multilingual labels

FAST FLOW

- High flow rate
- Fast discharge
- Quicker knockdown
- More operator protection

COMPLIANCE FLOW

- Long range
- Highest UL ratings

OPTION

- USCG approved with bracket listed on UL label
- Hot dip galvanized USCG brackets available

MANUFACTURED AND TESTED TO UL STANDARDS

HIGH FLOW DRY CHEMICAL

RUGGED

- 6-Year manufacturer's warranty
- Stored pressure design
- Dependable drawn-steel cylinders
- Durable high-gloss polyester powder paint
- All-metal valve construction
- **Brass Valve-Heavy Duty**
 - Chrome-plated brass valve body
 - Stainless steel handle & lever
- Twice the flow rate of standard models
- Meets DOT requirements
- Temperature range -65°F to 120°F

USER-FRIENDLY

- Easy and economical to maintain and service
- Large loop stainless steel pull pin
- QR coded and multilingual labels

OPTION

- USCG approved with bracket listed on UL label
- ABC or Purple K Chemical

HIGH FLOW portable fire extinguishers are for applications where discharge rates exceeding one pound per second are required as specified in NFPA 10. These extinguishers utilize the same hardware and are manufactured to the same UL specifications as Amerex compliance-rated products.
